INDEPENDENT ANALYTICAL REPORT

Client: Prisma Peptides

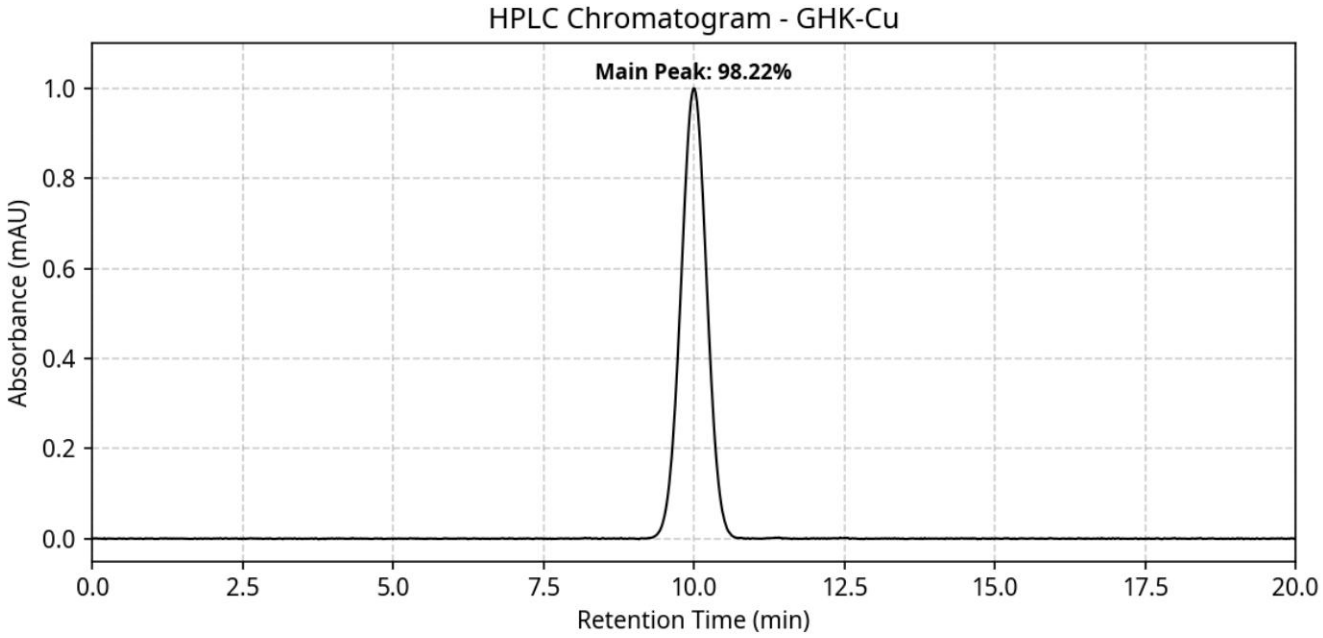

Sample Name:	GHK-Cu (50mg)
Lot/Batch No:	PP-7473-C
Date Received:	2026-05-13
Date Analyzed:	2026-05-23
Methodology:	RP-HPLC / LC-MS/MS
Report ID:	RM-481560

Quantitative Analysis Summary

Analytical Parameter	Specification	Observed Result
Purity (by HPLC)	Reported	98.22%
Identity (by MS)	Conforms to Structure	Confirmed
Net Peptide Content	>= 80.0%	85.6%
Residual Solvents	< 0.5%	Not Detected
Heavy Metals	< 10 ppm	Conforms

HPLC Chromatogram (Independent Verification)

ResolveMass Laboratories Inc.

Analytical Conclusion:

The submitted sample of GHK-Cu has been independently verified for purity and identity. The observed purity of 98.22% meets the requirements for high-purity research applications.

Dr. Michael Chen
Senior Analytical Scientist
